Academic Position

2025 - Present Postdoctoral Fellow, CY Cergy Paris University

Prior Education

2020 - 2025	Ph.D. in Economics, University of Manchester
2024	Visiting Ph.D. Student, Centre for Business Taxation, University of Oxford
2023	Ph.D. Internship, International Monetary Fund (IMF)
2019 - 2020	M.Sc. in Economics, University of Manchester
2015 - 2019	B.Sc. in Economics & Mathematics, Lahore University of Management Sciences

Research & Teaching Fields

Primary Field: Public Economics
Secondary Fields: Applied Microeconomics, Corporate Finance

Job Market Paper

Tax Rules and Capital Reallocation: Real Effects of Anti-Tax Avoidance Policies

Abstract: Anti-tax avoidance policies aim to curb profit shifting by MNEs, yet their effects on capital costs and economic growth remain a critical question. This study examines the causal impacts of Earnings Stripping Rule (ESR)—a core anti-tax-avoidance measure adopted by more than ninety countries in the last decade—that limits profit shifting through debt channels but increases the cost of debt-financed capital. Using a large panel dataset on global MNE operations and a staggered difference-in-difference design, I compare the real activities of MNEs affected by ESR with those of unaffected groups. I find that ESR effectively reduces profit shifting and tax avoidance but also lowers investments in affected subsidiaries. MNEs offset these declines by reallocating capital and employment toward unconstrained affiliates, primarily abroad. However, as the policy coverage expands across a group’s global footprint, this reallocation shifts from foreign to domestic units, closing the international escape margin and raising group-level tax liabilities. These findings suggest that international coordination is crucial for designing effective, non-distortionary anti-avoidance policies.

Other Working Papers

Intended and Unintended Consequences of Anti-Avoidance Rules: Evidence from Uganda (with [Muhammad Bashir](#), [Kyle McNabb](#), & [Mazhar Waseem](#))

Size-Based Policies and Firm Growth: Evidence from Pakistan (with [Muhammad Bashir](#), [Zehra Farooq](#), & [Mazhar Waseem](#))

Work-in-Progress

Preferential Tax Regimes and Firms' Outcomes: Evidence from Panama's SEM Regime (with [Pierre Bachas](#) & [Sebastien Laffitte](#))

Scholarships & Grants

2024	International Growth Centre funding for the project "Illicit Financial Flows from the Global South: Evidence from Uganda", (joint with Muhammad Bashir , Kyle McNabb , & Mazhar Waseem) April 2024- March 2026, £29,950
2024	International Centre for Taxation & Development Grant for the project "Illicit Financial Flows from the Global South: Evidence from Uganda", (joint with Muhammad Bashir , Kyle McNabb , & Mazhar Waseem) February 2024- June 2025, £20,375
2023	World Bank Grant for the project "Spur Winning FDI: The Role of Sovereign Wealth Funds in GCC Economic Diversification", (joint with Yevgeniya Korniyenko & Weining Xin) November 2023- June 2024, \$7,000
2022	UNU-WIDER Grant for the project "Illicit Financial Flows from the Global South: Evidence from Uganda", (joint with Muhammad Bashir , Kyle McNabb , & Mazhar Waseem) October 2022- September 2023, \$10,000
2020-2024	Ph.D. Fellowship, University of Manchester
2019-2020	M.Sc. Scholarship, University of Manchester

Conferences & Seminars

2025	NBER Conference on The Economic Analysis of Business Taxation; Organization of Economic Development (OECD); European Association of Young Economists Annual Conference; International Public Economics Workshop; Paris School of Economics; Georgetown University Qatar; Aix-Marseille University; Macquarie University; Bilkent University; American University in Cairo (AUC); American University of Sharjah (AUS); Lahore University of Management Sciences (LUMS); Xiamen University; Habib University
2024	PSE-CEPR Public Economics Forum; Royal Economic Society Annual Conference; ZEW Annual Public Finance Conference; Centre for Business Taxation, University of Oxford; SANEM Annual Economist Conference; Association for Mentoring and Inclusion in Economics; Annual ASPEC Conference, Oxford Brookes University
2023	International Monetary Fund; United Nations University - World Institute for Development Economics Research; North West Social Science Doctoral Training Partnership; Economic Research Forum

Research & Teaching Experience

Teaching Associate

2024 - 2025	Macroeconomics 1; Macroeconomics II; Microeconomics 1; Econometrics; International Trade & Policy; Energy Economics and Policy (University of Manchester)
2018 - 2019	Microeconomics; Econometrics (Lahore University of Management Sciences)

Research Assistant

2022 (full year)	Ron Chan
Winter 2019	Global Development Institute
Summer 2017	Mazhar Waseem

Teaching Assistant

Spring 2021	Microeconomics II (University of Manchester)
2017 - 2019	Microeconomics I; Microeconomics II; Probability; Statistics (Lahore University of Management Sciences)
